

## Key dates

01.03.2020 Scholarship application deadline

01.04.2020 Abstract submission deadline

20.04.2020 Notification of acceptance

01.05.2020 Deadline for early registration

01.06.2020 Deadline for late registration

## Venue

The conference will take place in Skagen (Denmark) – a unique place on the north of Denmark, where the Baltic meets the North Sea.

Participants will have a possibility to stay in the conference hotel at a special price. There are also many other accommodation possibilities around, including bed & breakfast. Full information is provided on the conference website.

## Conference on spectral imaging

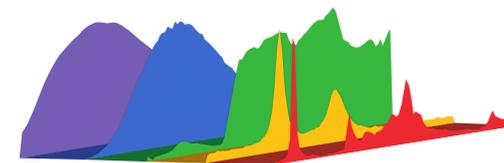

On behalf of the International Association for Spectral Imaging (IASIM), we have a pleasure to invite you to IASIM-2020, the eighth international conference in spectral imaging.

The biannual IASIM conference is intended to provide a unified, open, cross-disciplinary and interactive forum for the exchange of information and ideas within the general spectral imaging community, regardless of the spectral or spatial range.

This conference will bring together speakers, contributors, attendees and exhibitors from areas covering all aspects of spectral imaging (microscopic, macroscopic, remote sensing) and a large variety of spectroscopic techniques. It will include three days of scientific sessions, with oral and poster presentations on spectral imaging research and applications.

Technical sessions will include keynote presentations by invited speakers, contributed presentations, panel discussions from members of the imaging community, posters and exhibitors, promoting cross-talks and new ideas.

**You are cordially invited to IASIM 2020!**

# IASIM 2020

July 5–8  
Skagen, Denmark

## Organized by

International Association for Spectral Imaging  
University of the Basque Country  
Aalborg University

<https://2020.iasim.net>

[2020@iasim.net](mailto:2020@iasim.net)

## Program

The conference program will include invited lectures, oral presentations, posters and short presentations from sponsors.

The conference will start Sunday afternoon with a pre-conference workshop and continue next three days with normal conference sessions.

The contributions may report mature results, but feasibility studies or problem discussions are also more than welcome. List of confirmed speakers is available on the conference website.

The time for oral presentations is 15 minutes plus 5 minutes for discussion. The official conference language is English. Poster contributions (A0 with portrait orientation) may be put up on the first day of the conference and will be accessible during coffee breaks as well as a dedicated poster session.

## Proceedings

All attendees will receive a book of abstracts. Presenters of mature works will be encouraged to submit their manuscripts for publication in the special issue of **Journal of Spectral Imaging**, subject to the normal peer review process. All details are available on the conference website.

## Registration fee

	1st of May, 2020	
	Before, €	After, €
Companies	500	600
Academia	375	475
Students	250	375

Registration fee includes:

- Admission to the conference
- All conference materials
- Pre-conference workshop
- All coffee breaks and lunches
- Welcoming social on Sunday
- Excursion to Grenen on Monday
- Gala dinner on Tuesday

## Scholarship

Traditionally IASIM will provide three student scholarships, which include a conference registration waiver.

Students are defined as actively pursuing a college degree. Applicants should supply a short letter from their advisor or department head indicating their status as a student and the department in which they are enrolled.

## Travelling to Skagen

Skagen can be easily reached by regular train (goes every hour) from another Danish city, **Frederikshavn**. Frederikshavn, in its turn, has train connections with major Danish cities including **Aalborg** and **Copenhagen** as well as ferry connections with **Göteborg** (Sweden) and **Oslo** (Norway).

The closest airport to Skagen is located in Aalborg, it has daily flights from/to Oslo, Amsterdam and Copenhagen. The organizing committee will arrange a bus from Aalborg Airport to the conference hotel on Sunday, the 5th of July.

## Excursion and activities

All participants will have a possibility to visit Grenen, where two seas meet, and the collision of the waves is clearly visible to the naked eye. Grenen is a spit formation consisting of deposited sand and gravel carried along by the strong currents.

We will get to the top of **Grenen** by Sandormen – a famous tractor driven bus, which does this job for over than 50 years and became a part of the history of the location.
